

STUDENT DISABILITY SERVICES

dss.mst.edu

A disability does not have to be a barrier to your academic success. The SDS office ensures that qualifying students have a level playing field on which to pursue their educational goals.

The SDS staff works individually with students to provide:

- > Academic accommodations and support services within resources of S&T
- > Equal access to classrooms, course curriculums, and sponsored programs
- > Specialized accommodative services based on the student's needs and documentation
